

CITY OF FAYETTE

**APPLICATION FOR A
DEMOLITION PERMIT**

DATE: _____

APPLICANT NAME _____ ADDRESS _____

TELEPHONE NO. _____

STREET ADDRESS OF BUILDING TO BE DEMOLISHED _____

STARTING DATE _____ COMPLETION DATE _____

Scope of work: All utilities properly disconnected and the sanitary and storm sewers shall be plugged or capped. The basement walls or foundation shall be lowered two (2) feet below the average grade and refilled to one (1) foot above the average grade with clean fill dirt. The area shall be properly barricaded.

Owner's responsibility: **An approved asbestos inspection document for a commercial building from the Iowa DNR must be attached to this application.** A single residential house doesn't require an asbestos inspection if it is demolished and the debris removed from the property according to the IDNR. If a house is burned then an asbestos inspection is required.

Before work starts, the contractors or workers must be properly covered with property and liability insurance, and a certificate of insurance be on file with the Fayette City Administrator/Clerk. The demolition must be completed in a reasonable time, and all debris removed.

I have read Chapter 155 of the Code of Ordinances of the City of Fayette, Iowa, and believe to the best of my knowledge, that the demolition proposal in this application would not violate any portion of this chapter.

(Applicant's Signature)

Approval by city:

City Administrator/Clerk
Date _____

Public Works Director
